

KSI Problem of the Day

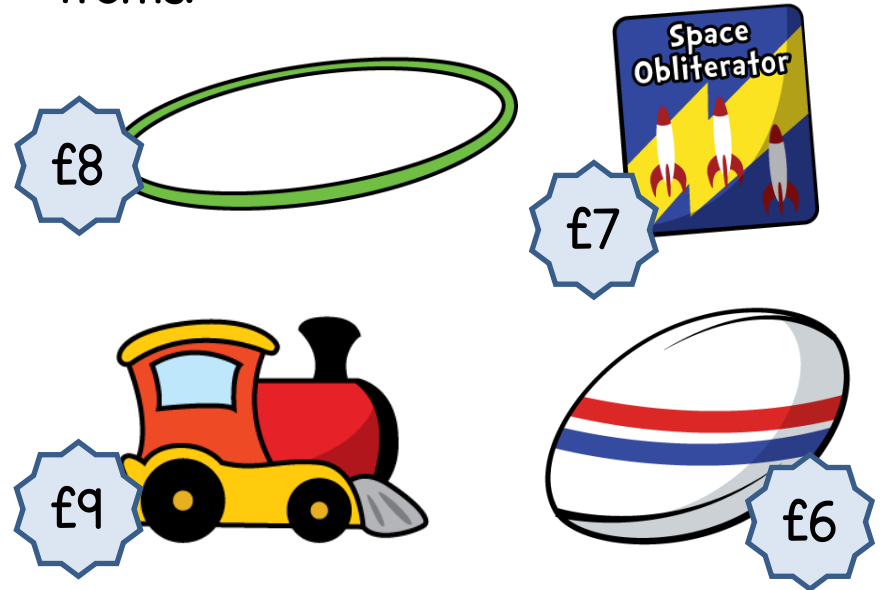

Tuesday 27th March 2018

1 The table shows the mass of four dogs.

Dog	Mass
Casper	26 kg
Rusty	15 kg
Oliver	42 kg
Bumper	38 kg

What is the *difference* between the mass of the lightest and heaviest dog?

2 Lee bought three of the following items.

He paid £21

Which item did he not buy?
